Code Submission

Please follow the instructions given on the portal in order to upload your code. You will find three folders inside **Code Submission** folder as follows:

1. **Rpi code** folder:

You will find two folders namely code and script. Please put your code inside the code folder and scripts inside the scripts (if any) folder. Make sure your code is well documented and commented.

2. **Node_MCU code** folder:

You will find two folders namely code and script. Please put your code inside the code folder and scripts inside the scripts (if any) folder. Make sure your code is well documented and commented.

3. **Computer System Code** folder:

You will find two folders namely code and script. Please put your code inside the code folder and scripts inside the scripts (if any) folder. Make sure your code is well documented and commented.

Uploading Code on Portal:

- Please rename your Code Submission folder as: eYRC#NT#<Team ID>_Code
- Upload the folder: eYRC#NT#<Team ID>_Code on the portal (read instructions).
(For example: If your team ID is 25 then, save it as eYRC#NT#25_Code)
